

ADD CARE

ENTERPRISE SOLUTIONS

BY CLIXLOGIC

84%

of households income decline

10.4%

unemployment rate

4.5M

lost jobs in 2020

535,521

confirmed cases of COVID-19

11,110

deaths

**How do we prevent
this spread?**

OUR SOLUTION

ADD Care provides **integrated enterprise grade** solutions for sanitation and disinfection

DESIGNED FOR MAXIMUM REACH

Carefully designed to ensure that **all areas (air and surface)** are reached by the UVC lamp

AUTOMATED SANITATION

Motion sensors ensure that UVC lamps are automatically disabled once movement is detected.

24/7 REMOTE MANAGEMENT

Monitor and update anytime, anywhere
See real-time results via integrated virus index monitor

EFFECTIVE

Backed by 35 years of research and development with proven results.

ONE-STOP SHOP

We supply, deliver, install and maintain for a seamless solution.

PHILIPS

UV-C disinfection luminaire

Philips UV-C disinfection upper air ceiling mounted

PHILIPS

UV-C disinfection luminaire

Philips UV-C disinfection upper air wall mounted

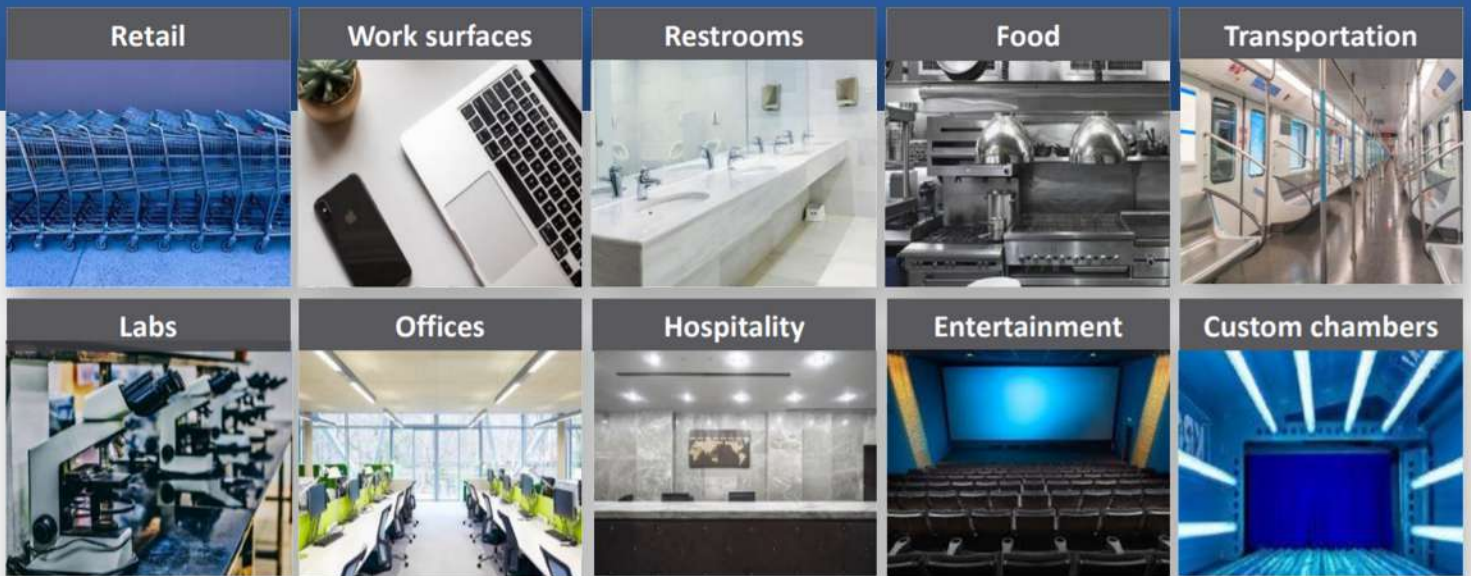

Easy-to-install and chemical-free surface disinfecting solution effectively and sustainably discharges the UV-C irradiation to critical spaces like hospitals, schools, offices, banks, government buildings, hotels, churches, restaurants etc. where sanitation is the priority.

APPLICATIONS

Looking at just surface and air, there are numerous real-world segments where UV-C lighting is a viable disinfection solution

Open luminaires and Cabinets Air: Upper air

UV-C luminaires for disinfection of both surfaces and air

Primary uses are for disinfection and sterilization of objects

UV-C devices for disinfection of air

Wall mounted, suspended or ceiling mounted

**For more than 15 years, we are your
trusted maintenance provider and
systems integrator.**

**We mitigate danger and loss
by providing integrated solutions
that will generate savings and
maximize resources.**
